EVERYTHING

# THE ARTITALIA GROUP ADVANTAGE

## • World-Class Manufacturing and Design

Combining the manufacturing capabilities of elite facilities with design and engineering firm standards.

## • Industry Leading Products at Competitive Prices

Diverse portfolio consisting of innovative, versatile and quality products to help you revitalize the customer experience and connect with your clientele.

## • Dedicated Client Management Team

Designated customer-centric team closely follows your project from conception to completion. Each client is assigned the following:

- ✓ Account Executive
- ✓ Project Manager
- ✓ Customer Service Representative
- ✓ Designer
- ✓ Engineer
- ✓ Estimator

## • Project Tracking Reimagined

Proprietary Web Tracker offers 24/7 tracking with every project, allowing for quick access to all relevant documents. Technical drawings, installation manuals, how-to videos and so much more, all in one convenient place.

## • Worldwide Manufacturing & Warehousing Capabilities

Multi-continent facilities allow for timely deliveries without sacrificing on quality.

## • Three Time Winner of Canada's Best Managed Companies 2019 - 2021

We invest in our employees so they can be at their best for you. As part of Deloitte's Best Managed Companies, we pride ourselves on offering the best customer experience at every level of business.

The background is a complex, abstract composition of overlapping geometric shapes and textures. On the left, there are large, angular shapes in shades of teal and dark brown. In the center and right, there are intricate, layered patterns of wood grain, with some sections appearing as dark, charred wood and others as lighter, natural wood. The overall effect is one of depth and texture, suggesting various finishing techniques and materials.

# FINISHING CAPABILITIES

# AUTOMATED POWDER COATING

---

**AT A GLANCE**

Over 1000 linear ft. of suspended conveyor.

One of the fastest lines in the industry.

Offers great coating performance, quick color change time, and low maintenance costs.

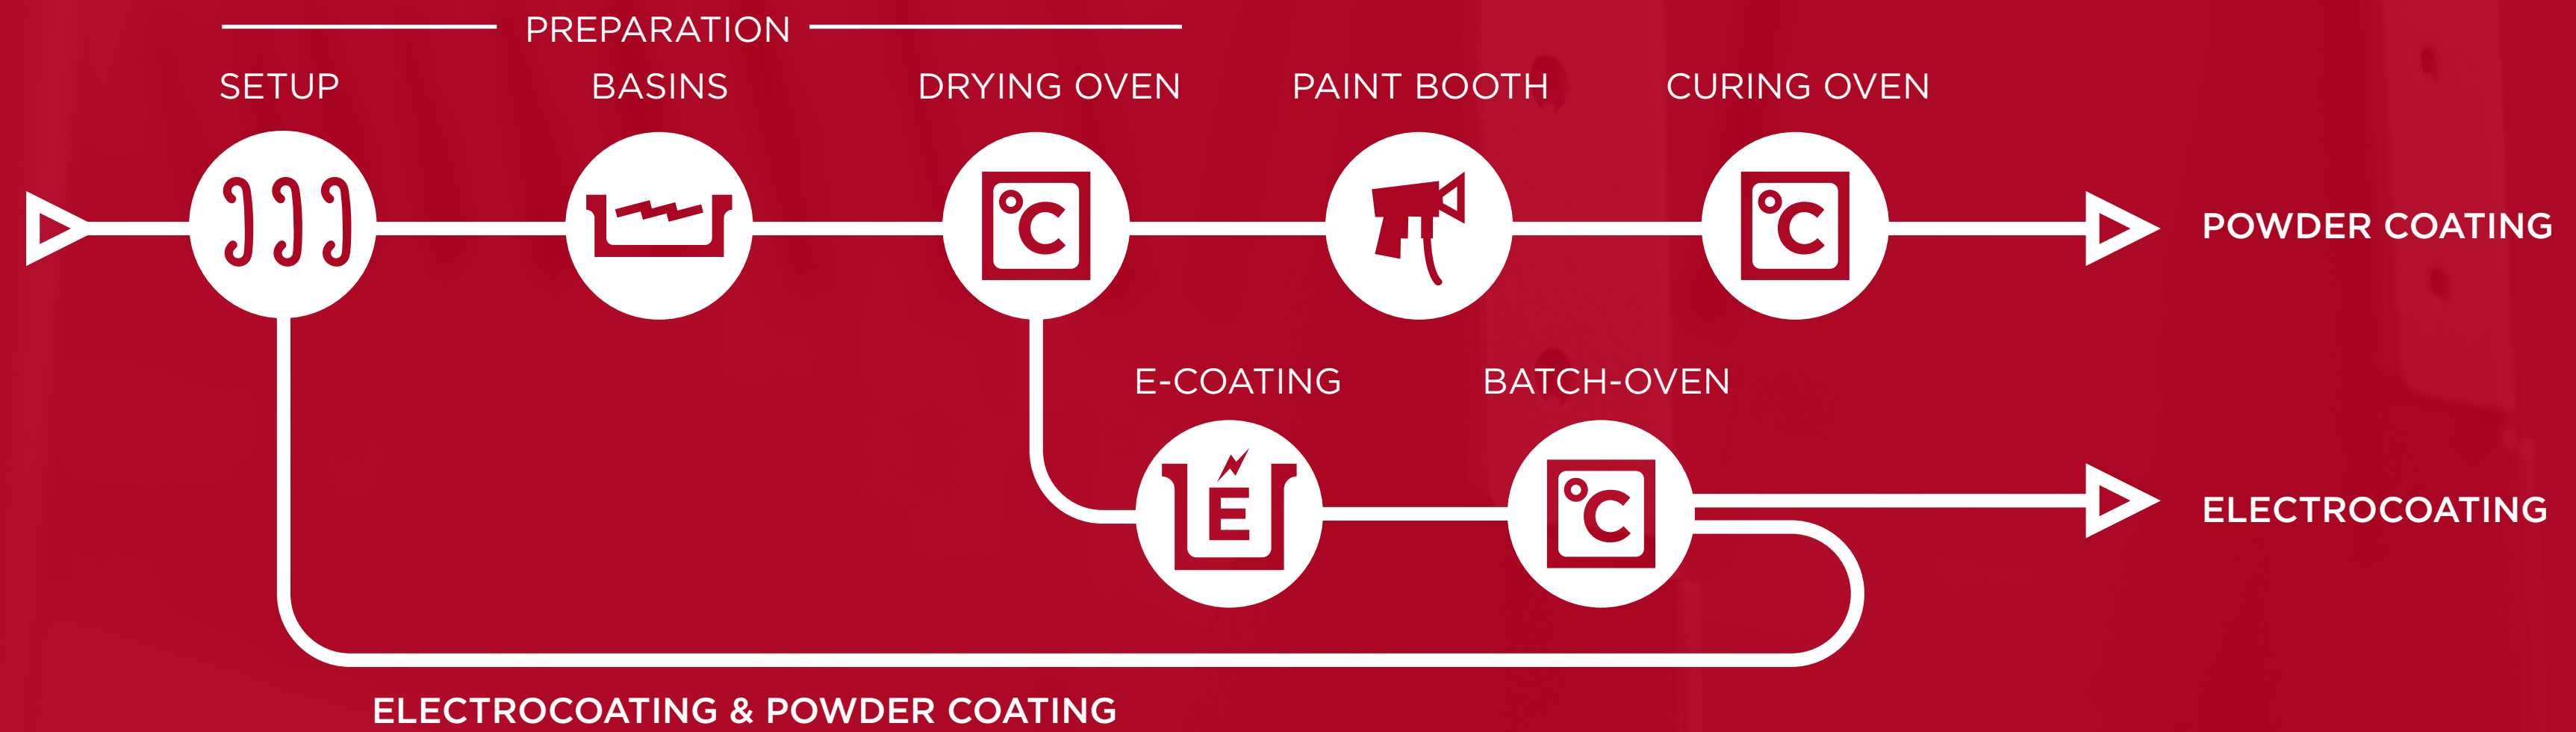

Supplies multiple industries with a variety of color and textured finishes for metal.

Finishes offered are endless and more importantly sourced from some of the most trusted names in the industry.

We work hand in hand with our customers and suppliers to deliver a superior finish on all delivered products.

Certified as an “Approved Applicator” for High Performance Architectural Powder Coatings.

# METAL FINISHING PRODUCTION

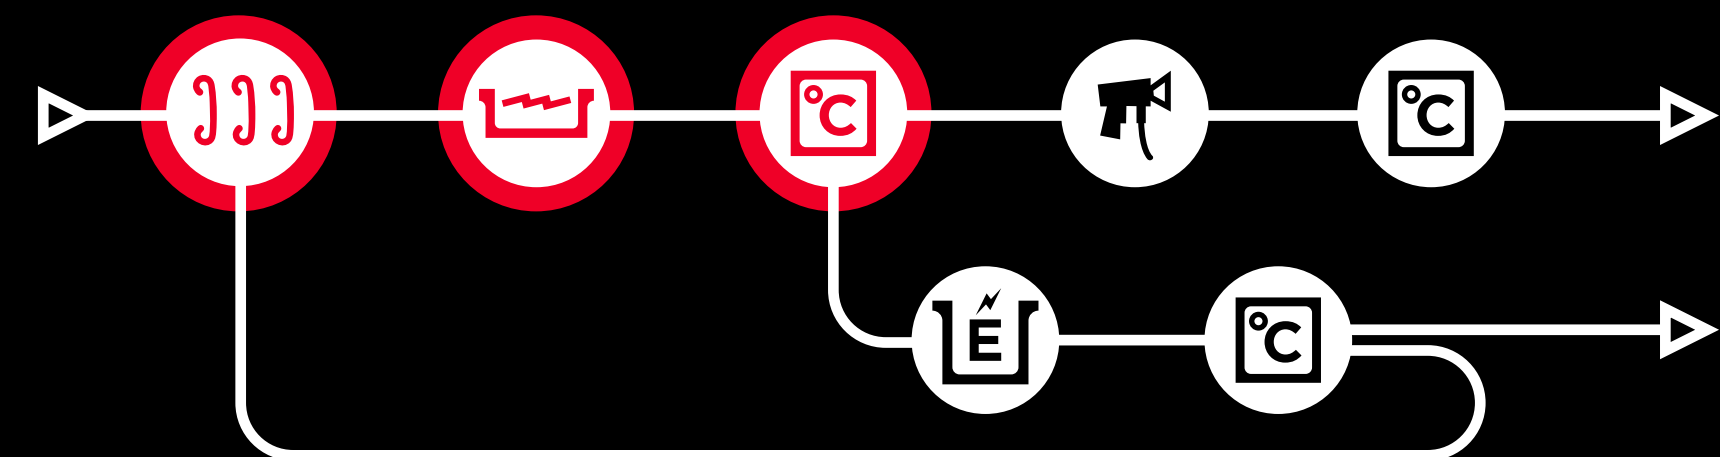

## PREPARATION

Paint line begins operating before production in order to maximize operating temperature.

Raw parts are loaded onto hooks on conveyor and sent to cleaning basin.

Cleaning basin is verified twice daily and cleaning solution is adjusted, if necessary, in accordance with the manufacturer's recommendations.

Cleaned parts are then sent to drying oven.

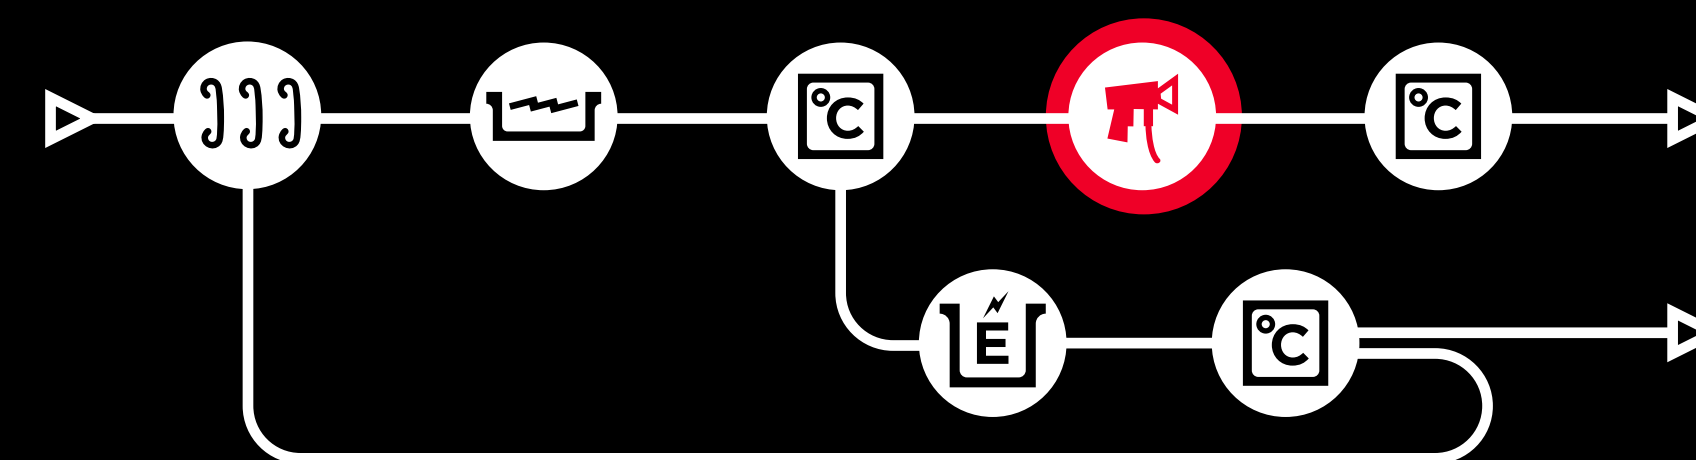

# AUTOMATED APPLICATION

ARTITALIA GROUP OPERATES AN AUTOMATED METAL POWDER COATING LINE WITH A:

- Wash stage
- De-grease stage
- Phosphate-free Nanoceramic coating stage
- Robotic powder coating stage

## POWDER COATING USED

Polyester | Polyurethane | Epoxy | Hybrid

# ELECTROCOATING

## AT A GLANCE

Application of Dupont/Axalta CorMax electrocoat covers all surface and inner area due to the immersion process.

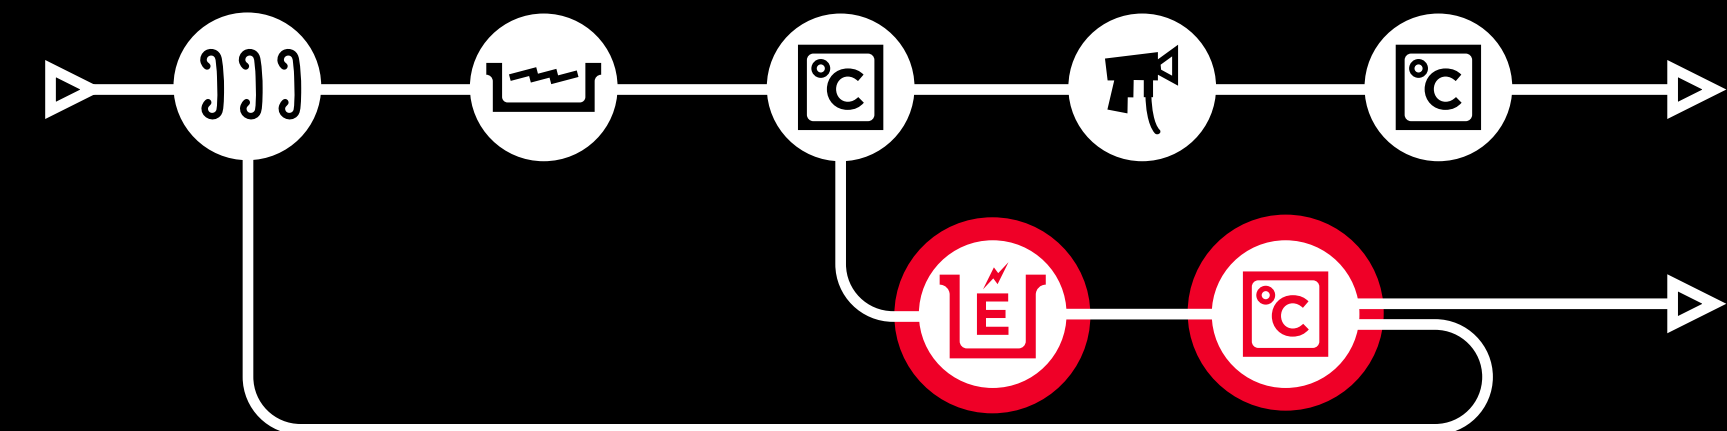

Can handle parts as large as 20' x 10' x 3'.

E-coating is a method of painting which uses electrical current to deposit paint.

Uniform paint application even on the most intricate parts and pre-assembled pieces producing a superior paint finish that is highly-resistant to corrosion, chemicals, and chipping.

A cost-effective method for corrosion protection.

Environmentally-friendly and uses lead-free waterborne formulations, low VOC, and HAPS epoxy coatings.

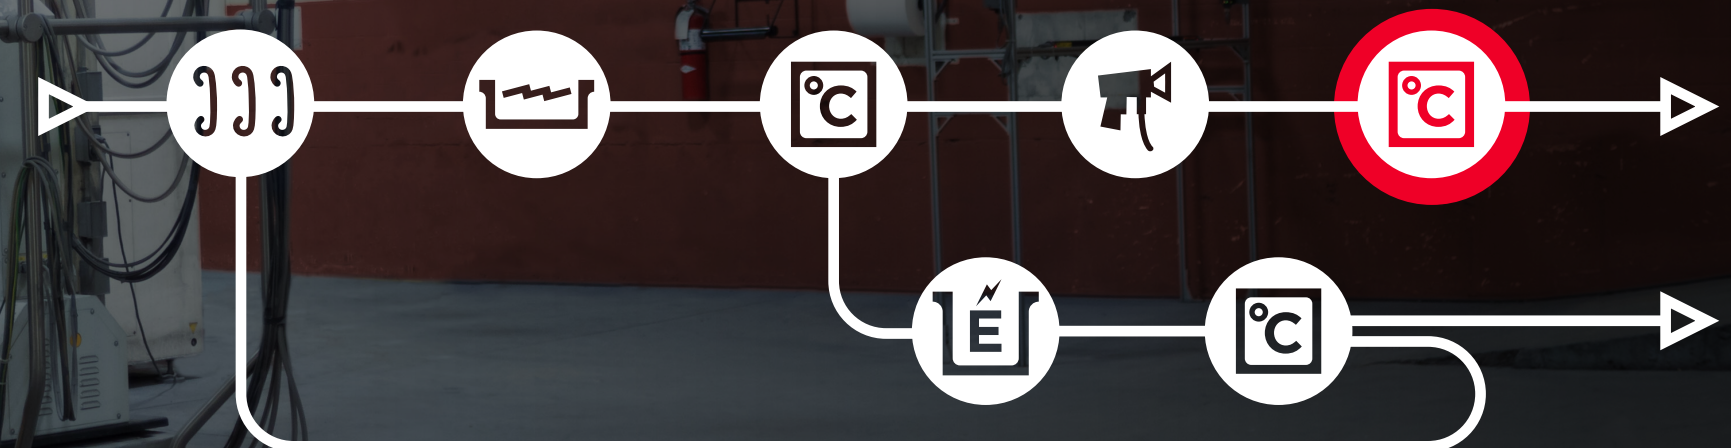

# COMPLETION & QUALITY CONTROL

Painted and cured parts are unloaded from the conveyor hooks and are subject to rigid quality control tests.

Our quality control activities include de-masking, visual inspection, and verification of color, thickness, adhesions, and curing prior to assembly or packing for inventory or shipment.

# AUTOMATED WOOD FINISHING

---

## AT A GLANCE

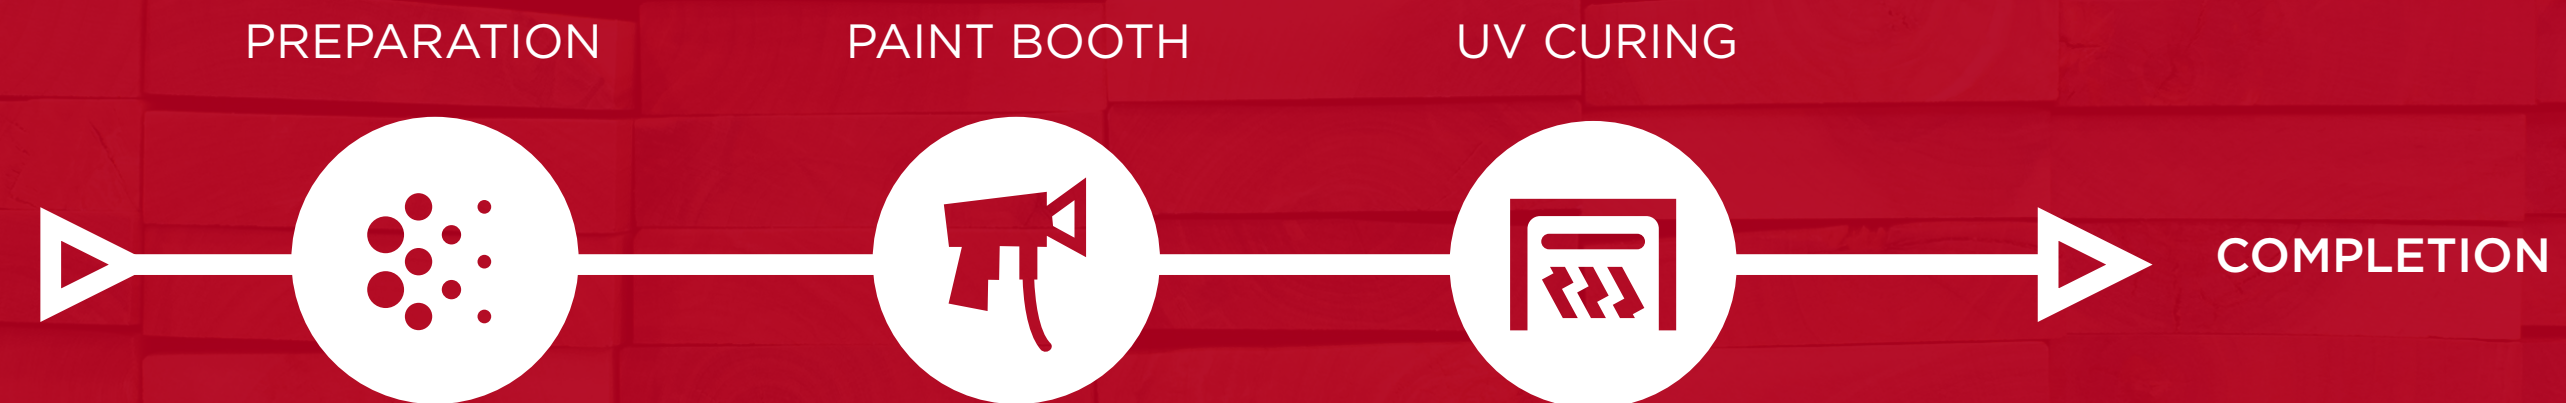

Our wood department is fully equipped to process and transform any type of wood substrate such as MDF, press wood, melamine, laminate, veneers, solid woods, and composites.

Fully-automated paint line with dual-spraying arms to apply a variety of water-based finishes such as colored paint, top coats, stains, lacquer, and 100% solids UV coatings.

Quick lacquer and color change from one product to the next one all while maximizing machine up-time.

# UV FLAT LINE FINISHING SYSTEM

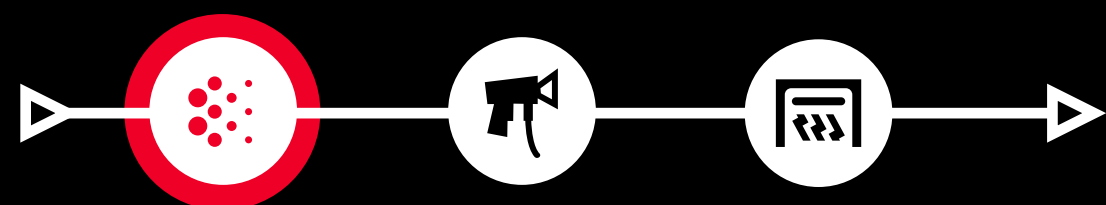

Allows wood panels to go through 3 different stages, sanding, painting, and UV curing.

# PREPARATION

Automated sanding removes the top surface of any wood type.

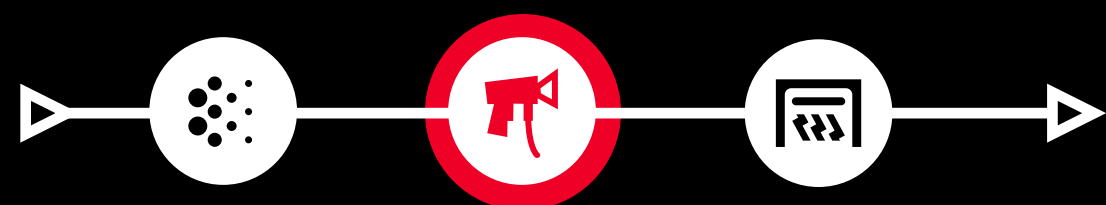

Ensures a delicate and efficient cleaning.

# AUTOMATED PAINTING

Dual spraying arms apply water-based finishes such as colored paint, top coats, stains, lacquer, and 100% solids UV coatings.

Pressurized cabin with downdraft airflow to control cleanliness of the air flowing through the booth cabin.

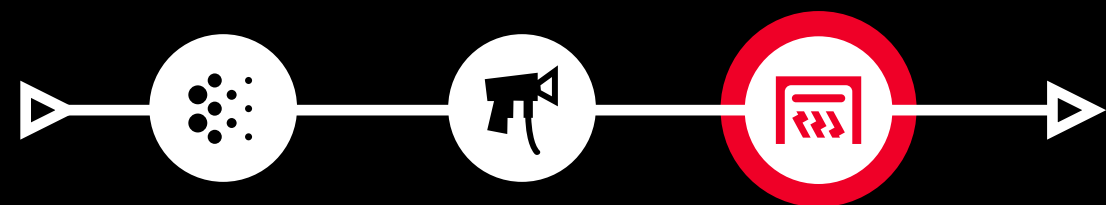

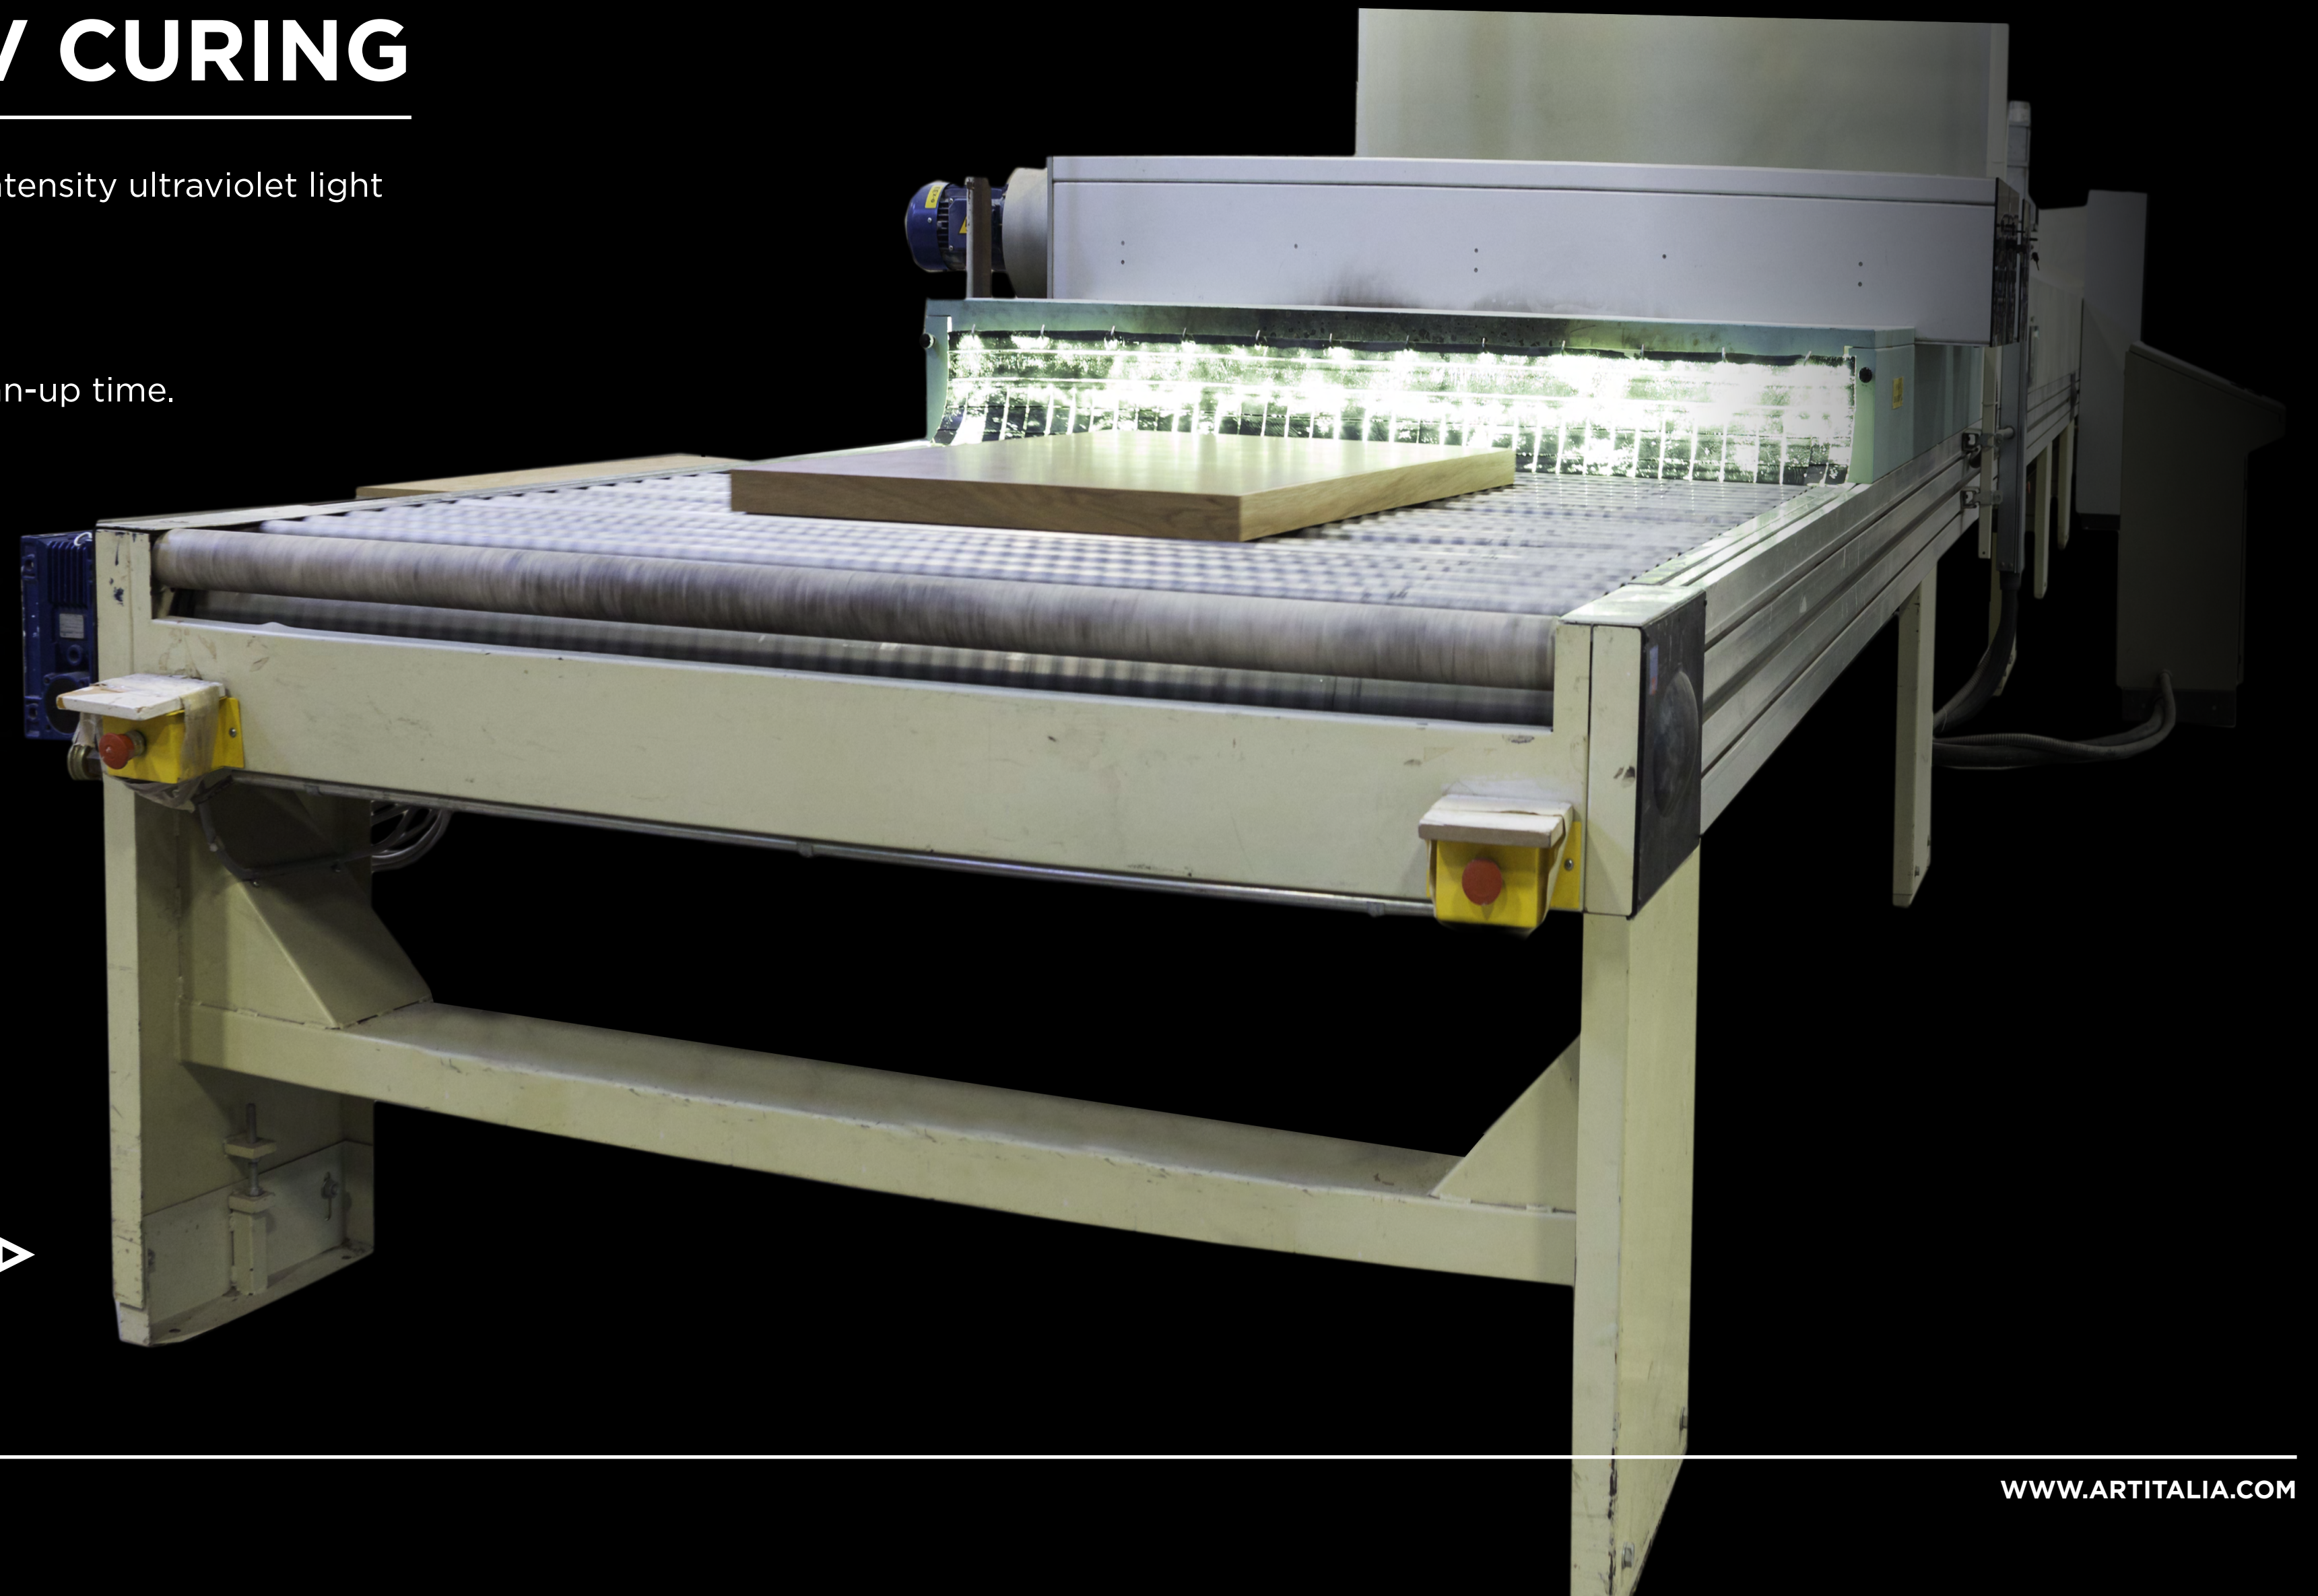

# AUTOMATED UV CURING

A speed curing process using high-intensity ultraviolet light to instantly cure or dry coatings.

Increases production speed.

Dramatically reduces set-up and clean-up time.

# ABOUT THE MAKERS

---

## **Artitalia Group, where passion meets innovation**

Incorporated in 1984 and headquartered in Montreal, Artitalia Group was founded by four craftsmen who shared an undying passion for the artistry of manufacturing. They set out to become the number one provider of complete retail environments and custom fixtures around the world. Since then, Artitalia has expanded to different markets, revolutionizing each one through its commitment to innovation and creativity.

Artitalia Group offers quality products and services required to manage end-to-end specialty programs, from conception to completion. We take pride in being able to offer custom solutions to challenging issues and provide peace of mind to our valued clients. Artitalia Group, helping companies reimagine what's possible since 1984.
